

Patrick Bradley Limited

QUALITY POLICY STATEMENT

Patrick Bradley Limited is a company with an established reputation. We operate a quarry, manufacturing and supplying aggregate and aggregate based products, and undertaking Civil Engineering, Road works and Building Works.

The Company recognises that its continued existence and profitability depends on the quality and effectiveness of its products and services. It is the policy of Patrick Bradley Ltd to provide products and services that fully and consistently meet the needs of our customers, delivered through operations, which ensure the health and safety of the workforce and public without damage to the environment.

The company therefore operates an integrated management system, commensurate with the requirements of;

- ISO 9001:2015
- ISO 14001:2015
- OHSAS 18001:2007
- Sector Scheme 12d:Edition November 2016
- Sector Scheme 16:Edition May 2017
- HAPAS
- CE MARKING
- Considerate Constructors Scheme

together with compliance with all regulatory requirements. The management system is documented so that it can be interpreted consistently, readily communicated and can be continuously improved through audit and review.

All employees, subcontractors and suppliers are expected to work to the Company procedures and to identify any areas where practice can be improved, thereby contributing to the continuing development and growth of the Company.
